1

Install the battery in the battery compartment on the underside of Diplodocus

2

Carefully twist all parts off the parts trees. Secure the harness onto Diplodocus with the harness strap. Follow drawing carefully to assemble the hinge plates, podium plates, door supports, and right- and left-hand end caps. Then mount the entire armament pod onto the harness.

6

Snap the neck rocket fronts and backs together on the neck rings as shown.

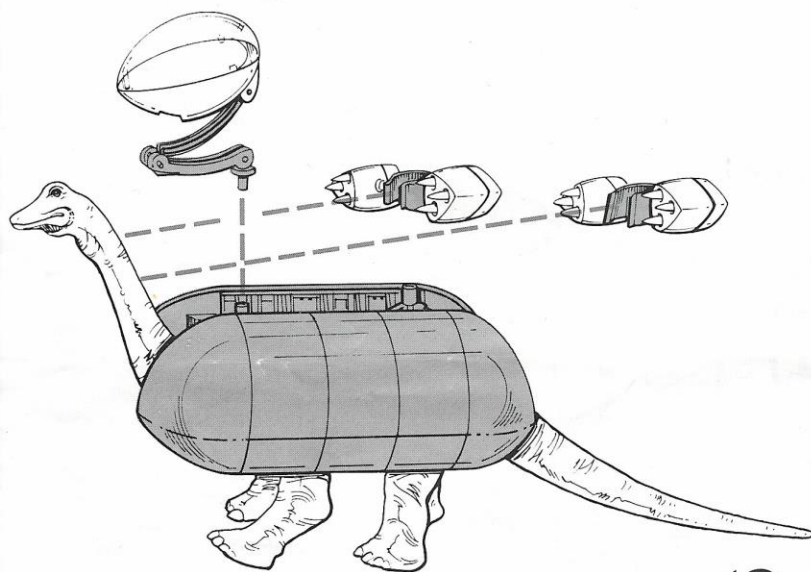

7

Assemble the tail shields, guns, and tail rings.

8

Clip the neck rings on Diplodocus. Mount the command module and slip on the tail rings.

9

The on-off switch is located under Diplodocus. Turn it on and Diplodocus will carry your heroic Dino-Riders into battle!

10

Questar rides in the command module and Mind-Zei and Aries ride in each side pod. The rifles and handguns clip on the Dino-Riders' arm. The water skins and bandoliers are worn over each shoulder. The AMP units are worn around their necks. Questar's Amp unit must be pressed flatter so it will fit over his heroic chest.

Snap the top ends of the ladder together. It will hook over various objects to help your Dino-Riders climb.
