

EDMONTONIA

with Axis

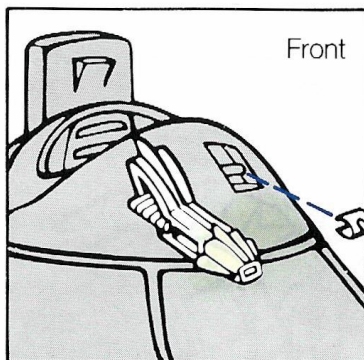

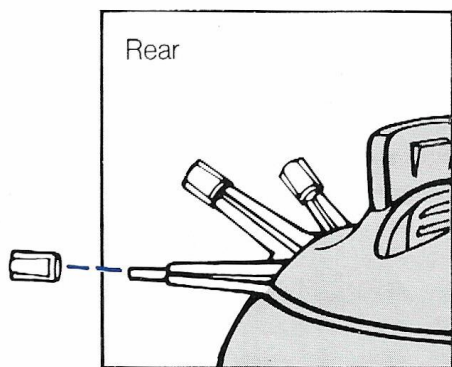

Protective Armor/Cockpit Assembly

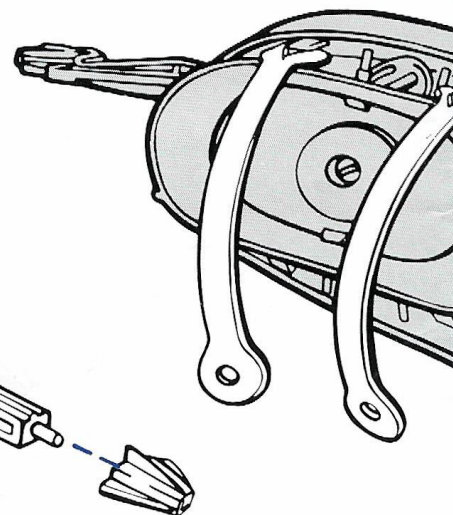

1

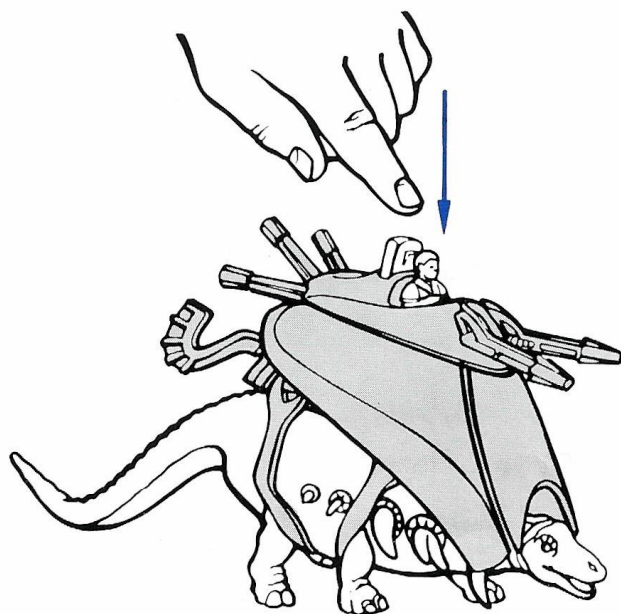

Mount the Rear Gun Tips on the Cockpit Rear Guns and the Front Gun Tips on the Cockpit Front Guns. Then mount the Guns to the Cockpit.

**2**

Hook one end of each Belly Band to side of the Protective Armor Assembl

**4**

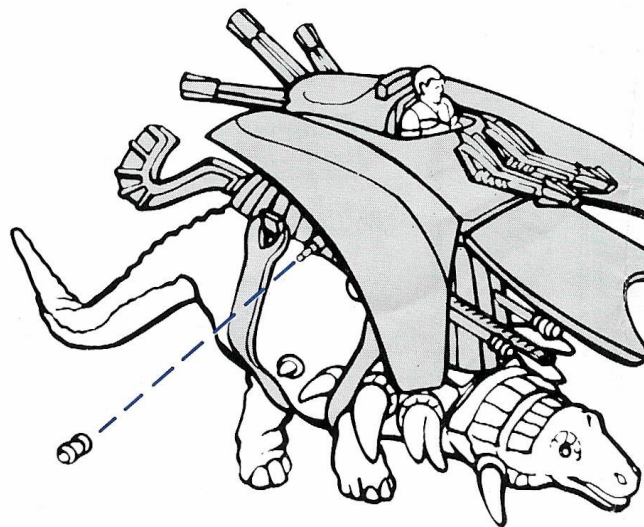

Stand Edmontonia back on his feet. Axis rides in the cockpit. To protect him from enemy fire, raise the armor shields by pressing the Shield Button. The shields will remain raised until the button is pressed again.

**6**

To activate the Spinni the raised position. T low position, as show give it one quick pull. around to mow down to keep your fingers c

5

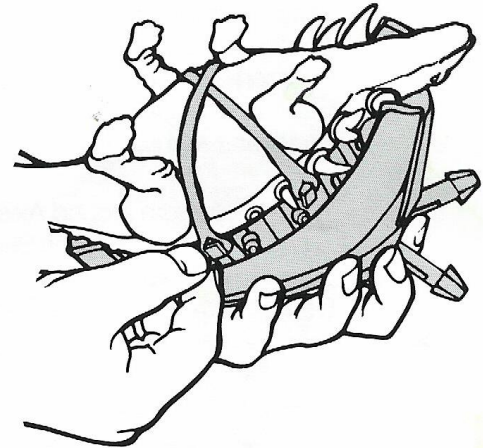

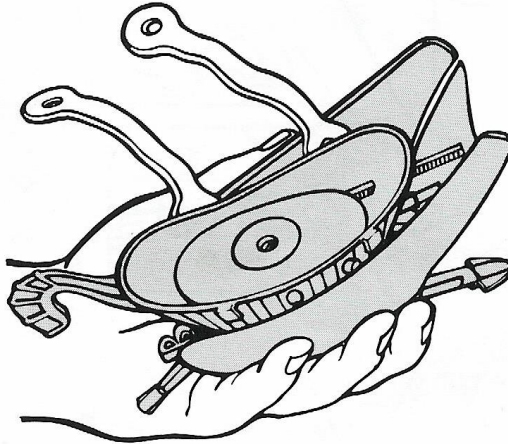

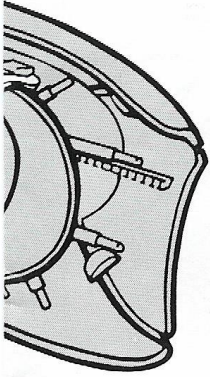

While the shields are raised, install the Armor Gun Tips on to the Armor Guns.

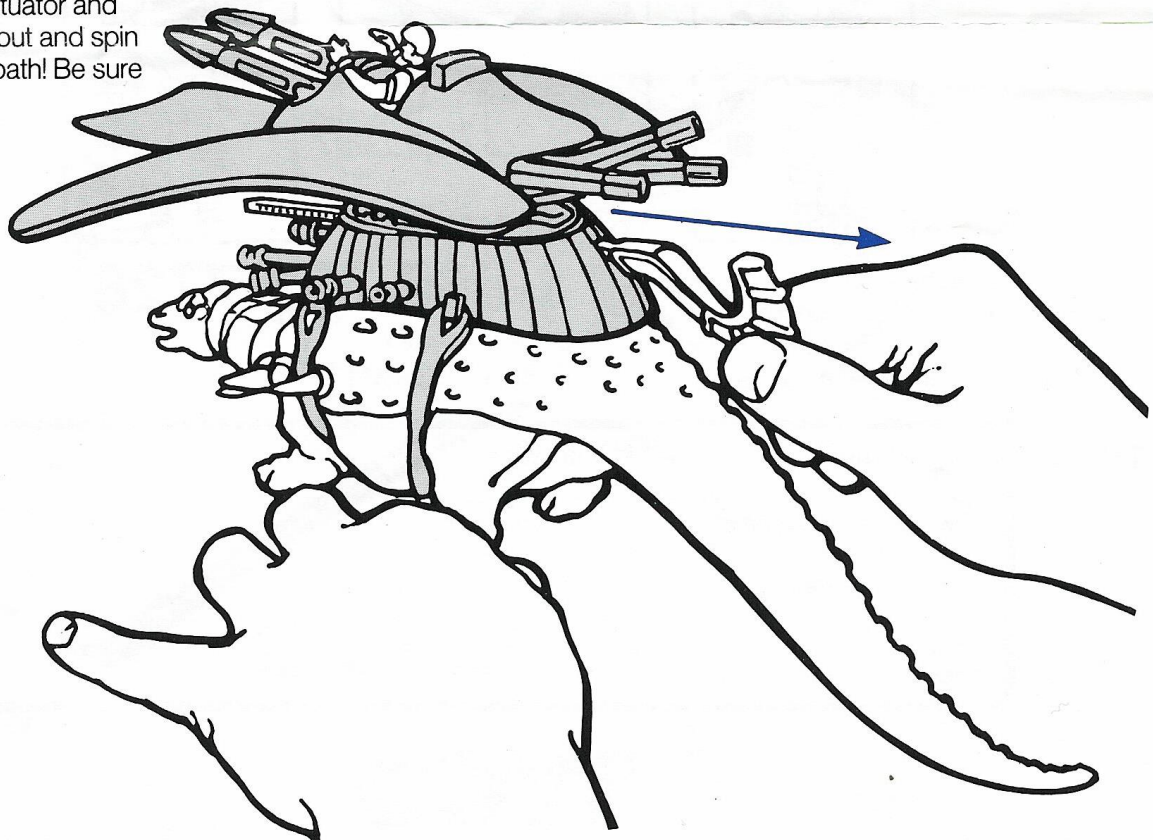

the right
oly.

3

Now, cradle the entire Armor Assembly upside-down in your left hand. Place Edmontonia upside-down on the Armor. Secure by crisscrossing the two Belly Bands and hooking each on the opposite corner of the Armor, as illustrated.

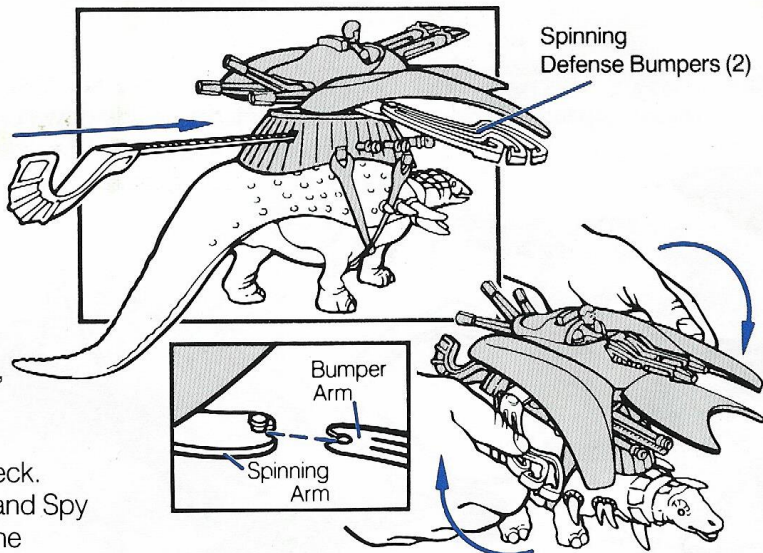

ng Defense Bumpers, first be sure that the shields are in

any evil Rulon in its path! Be sure
out of the way.

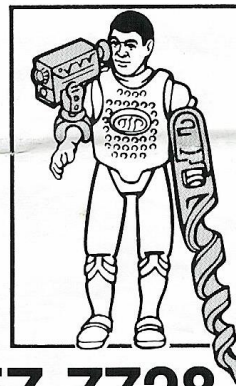

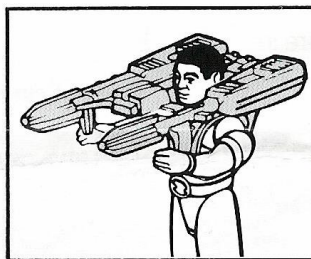

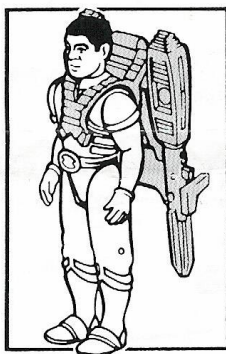

7

The Spin Actuator is replaced simply by pushing it back into the hole that it came from. Fold the Bumpers back under the cockpit, and press the Shield Button to lower the side shields. Close the front shield by hand. If the Bumpers separate from their spinning arm, they can be snapped back on.

8

The AMP is worn around Axis's neck. The Chest Shield, Psyche Blade and Spy Scope clip on as shown. Mount the Double Barrel Gun to the Gun Harness. Axis can carry the Gun on his back, but easily swing it around to firing position whenever necessary.
